

Done:

Setup Slack account for communication.

Assign team management roles.

Setup Gitlab account for versioning.

Setup Trello account for tracking activities.

Get account space on Kate from Rob.

Setup webpage template (we all did our own templates and then picked one).

Modifying the template:

- Changed colour scheme
- Modified navigation

Added google translate functionality to the site.

Upcoming tasks:

Modify the template further the webpages.

Implementing Google Map into the website

Setting up Refugee information page

Scrolling Navbar (sticks to top of the page)

Getting information for the Refugee.

Getting information for Helper.

Gathering information for Help Centres page.

Designing the Forum Feature.

Setting up Volunteer information page.

Set up Organisation information page.

Set up database for when implementing login feature.
